FREE FAIR WINS

The County Voted Heavily Against the Proposition.

Voting Machine Proposition Carries by Good Majority.

The tax levy proposition for a free state fair carried at a special election in the city of Topeka and Shawnee county Saturday. In the city the voting machine proposition was also adopted. This was not submitted to a vote in the country.

Country voters were opposed to a tax levy for the "open gate" and the proposition was beaten in the country by better than a two to one vote, but the majority given the proposition in the rural districts. The vote in the city was 3,394 for the levy and 1,834 against.

The tax levy provides for a one-quarter mill, or twenty-five cents on each \$1,000 of property taxed. The money is to be spent under the direction of the board of county commissioners in paying prizes for live stock, agricultural exhibits and domestic arts. None can be spent on horse racing.

The voting machine proposition prevailed by a vote of 3,459 in its favor to only 1,560 against it. The city commission is merely authorized to adopt and pay for voting machines, and can select any make of machine it considers best.

HIS HEADS WRONG

Convict Is Paroled From the State Penitentiary

Long Enough to Undergo an Operation on His Skull.

In order that he may undergo an operation upon the skull, by which Winston Salisbury, a convict in the Kansas penitentiary, hopes to be cured of his inclination toward criminal acts, Governor Capper has agreed to issue the man a parole. Salisbury will be allowed his liberty while he goes to a Chicago operating table. In 1908 he was kicked in the head by a horse. Since then he has been several times arrested for forgery. He says the injury to his head started him in the way of transgression.

Salisbury's application for a parole is endorsed by a number of persons of prominence in the east, who profess to have faith in him and his theory that his inclination toward crime results from pressure on the brain. He had been sentenced in Wisconsin and Wyoming before being sent to the Kansas penitentiary for forgery committed while he was in prison. He is wanted in Wisconsin for breaking parole. Salisbury is 30 years old.

HE IS FOR WILSON.

Socialist Will Discuss Lusitania Tragedy at Lincoln Post Hall.

William E. Clark, of Chicago, a traveling salesman, who is in the city on business, will speak at Lincoln post hall tonight on "The Sinking of the Lusitania." Mr. Clark will speak from the Socialist viewpoint. He says he is an admirer of Wilson, the man, and will praise him for the work he has been doing for world peace, regardless of his many political enemies who have been clamoring for war.

Mr. Clark says he will explain how the Socialists might go to war, in the event of war with Germany, and fight just as valiantly for the principle at stake as any other class of people on earth. "While the United States may be forced to join the mannikillers of Europe, President Wilson has done his best to avoid it without showing the white feather, which he could not do and hold our respect," said Clark today. "This was a happy phrasing of a much needed bit of knowledge when the president spoke of a man being too proud to fight, too proud to kill the wrong when he disagrees. Sometimes it takes an exceedingly brave man to refuse to lower himself to the level of a ruffian by precipitating a fight. But whoever thinks such a man is a coward can easily learn that he has made a serious mistake. All he needs to do is start some trouble."

TODAY'S MARKET REPORT.

Chicago, May 17.—WHEAT—Serious crop damage reports from Missouri had a bullish effect today on the wheat market. Assurances were received that Hessian fly was in every field in the western part of the state and that a heavy drought of yield could apparently not be escaped. Widespread frost over the spring crop belt tended further to strengthen the market. Prices which were 1/2c to 3/4c lower, were followed by a rally to well above Saturday night's closing.

Provisions—Steadiness was the rule in provisions. The bulk of cereals seemed to offset bearish influences.
